Stainless Steel Pivot Hinge

Product Introduction

Stainless steel pivot hinge is constructed of High quality stainless steel ensuring strength, durability and dependability. The stainless steel gives the hinge a modern look and does not tarnish, making it suitable for applications, and the stainless steel Brushed finish will not rust, build to resist daily scratches,corrosions and tarnishing. The economic and practical stainless steel center pivot cabinet hinge is employed when a minimum of visible hardware is desired or when the door must swing free of its frame.

Excellent pivot set option when door weight stress on traditional door frame butt hinges is a concern. Enables a doorway that pivots from a point on the floor under the door's center instead of from hinges on the side of a door frame. It is mortised into the top and bottom of the door and frame, only the pivot is visible. Hidden Door Pivot Hinges which can be used for installing revolving wooden doors, glass doors or alloy doors, kitchen, bathroom, and marine allows for alternative to a traditional door whether function, design, door weight, space or style are the issue.
